INTRODUCTION

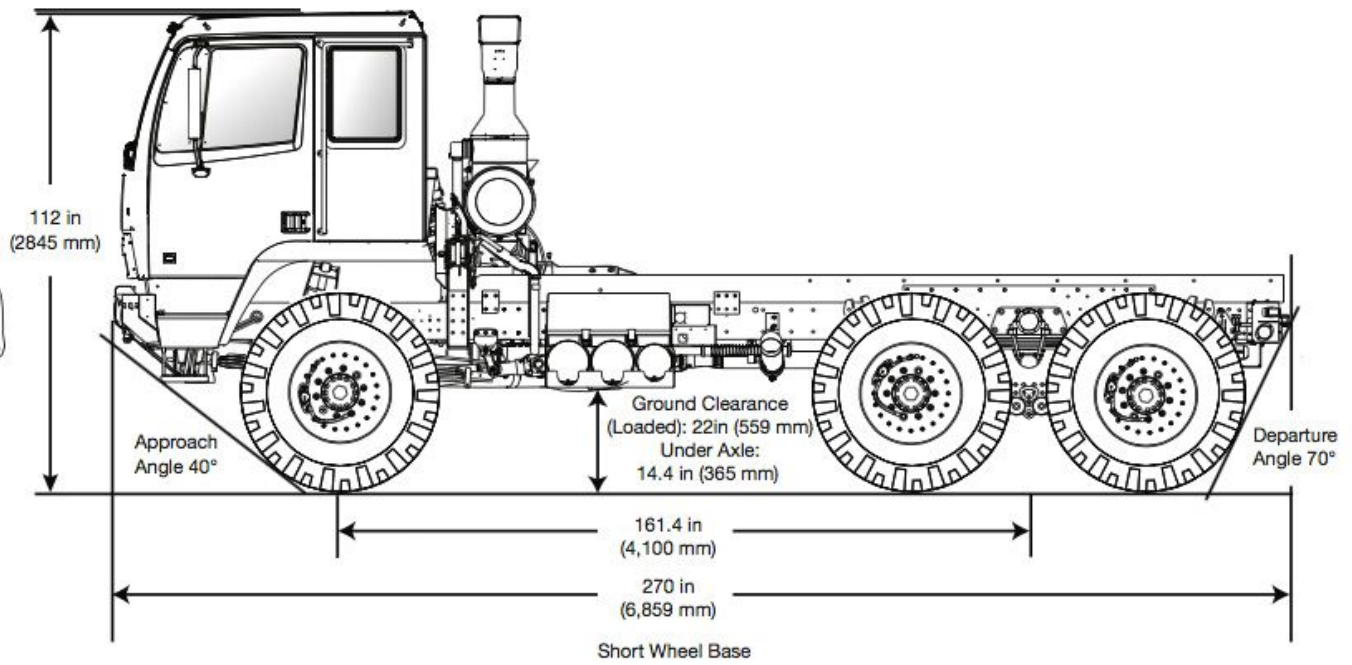

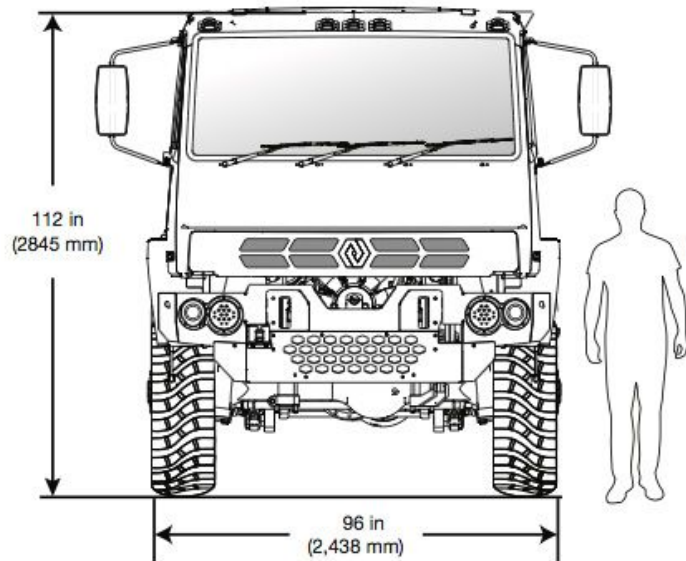

Truck Specifications — 2003 M1083 Stewart & Stevenson

Manufacturer	Stewart & Stevenson Tactical Vehicle Systems
Model	M1083A1 FMTV / MTV
Year	2003
Original military purpose	5-ton Medium Tactical Vehicle (MTV) cargo truck — designed to transport military cargo, equipment and personnel and tow tactical trailers
Configuration	6×6, full-time all-wheel drive
Engine	Caterpillar 3126 ATAAC, 7.2 L (440 cu in), inline 6-cylinder, turbocharged and air-to-air aftercooled diesel
Horsepower	330 hp @ 2,600 rpm
Torque	Approx. 850 lb-ft for the 3126-powered MTV configuration
Transmission	Allison MD3070PT, electronically controlled 7-speed automatic
Transfer case	Integral with transmission, full-time AWD
Normal torque split	30% front / 70% rear
Off-road torque split	50% front / 50% rear
Axles	3 — front steering axle + intermediate drive axle + rear drive axle, ArvinMeritor
Axle ratio	Approximately 6.14:1 high speed gears with hub planetary gears
Tires	395/85R20 military all-terrain, Goodyear MV/T

Truck Specifications

Central Tire Inflation	CTIS — Central Tire Inflation System
Original Gross Vehicle Weight	30,896 lb / 14,017 kg (curb weight + rated payload)
Towing capacity	21,000 lb / 9,534 kg
Fuel capacity	66 gal total / 64 gal usable (250L / 241L)
Range	About 300 miles / 483 km
Maximum road speed	Approximately 76 mph / 121km/h
Electrical system	12/24-volt military electrical architecture
Starter	24 V
Alternator	250 A, 24 V
Ground clearance	Approximately 22 in loaded, about 14.4 in under axle
Fording depth	30 in / 76 cm standard
Maximum grade	60%
